### Configurar Variáveis de ambiente

## Verificar Versão Ativa do Java

```
C:\Users\i.borchardt>javac -version
javac 11.0.8-internal

C:\Users\i.borchardt>java -version
openjdk version "11.0.8-internal" 2020-07-14
OpenJDK Runtime Environment (build 11.0.8-internal+0-adhoc..jdk11u)
OpenJDK 64-Bit Server VM (build 11.0.8-internal+0-adhoc..jdk11u, mixed mode)
```

## Trabalhando com diferentes versões do Java

- Crie um arquivo .bat com o Script abaixo para setar as variáveis de ambiente de forma rápida e dinâmica toda vez que for necessário usar uma versão diferente do Java:

```
set JAVA_HOME=C:\IJB\Resources\JAVA\jdk-11.0.16.1+1
set path = C:\IJB\Resources\JAVA\jdk-11.0.16.1+1\bin;%path%
```
